

Combining BridgeTabs with Bridgemates/-Scorers/Pads

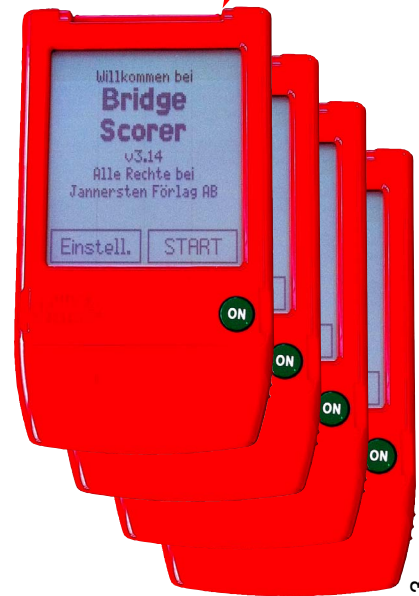

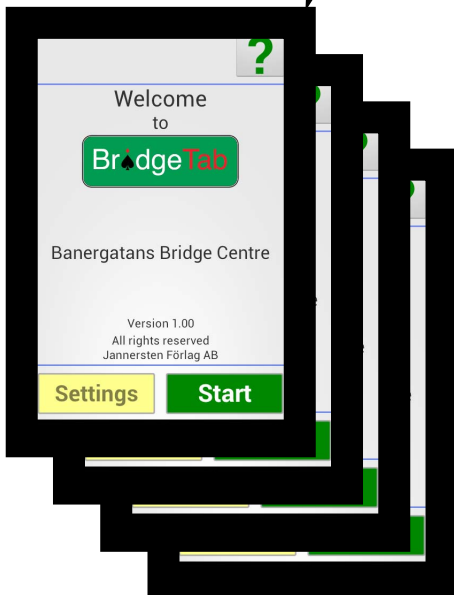

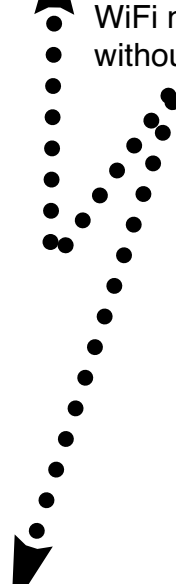

* Note that base station(s) connected with USB cable is **ONLY** needed if you use Bridgemates, BridgePad and/or Bridge-Scorers at the tables.

WiFi network with (standard) router

OR:
WiFi network without any router.

Note that the base station(s) that BridgeScorer and similar devices use is **NOT** compatible with the (standard) WiFi network that the BridgeTabs use.

i.e. You need BOTH WiFi **and** a dedicated base station to run BridgeTabs and BridgeScorers (Bridgemates) simultaneously.
